DEDICATION

Mr. Daniel W. Swatosh

Mr. Daniel Swatosh represents to us a man for all times.

He represents to us excellence in education. Each class was important to him because he knew that the lessons he taught would have an impact on the futures of his students.

We will also miss his sense of humor which was always capable of lifting sagging spirits.

Mr. Swatosh had not only a love for history, but also a support for the whole student. His camera followed us on the athletic field, at our band's concerts and at our plays.

Following thirteen years of service to the students of Littleton, Mr. Swatosh chose to pursue an alternate career.

He will be missed.

In Appreciation

"Yes, it is finally time to leave take it calmly and serene. It is the famous final scene. It has been coming on so long you were just the last to know. It's been a long time since you've smiled seems like oh so long ago. Now the stage has been set and the nights are growing cold. Soon the winter will be here and there's no one warm to hold. Now the lines have all been read and you knew them all by heart. Now you move toward the door, here it comes, the hardest point try your handle at the road."—Bob Seger - Best of luck and happiness to all my close friends and classmates. Seniors Speak

NINTEEN EIGHTY-FIVE

Time must pass
or so they all say,
Just enjoy every second
and live for today;

But today is passed
we're close to tomorrow,
A tear is shed
with our parting comes sorrow;

Together we fought
all and eachother
For stature, respect,
or is the reason another?

We shared and we grew
and each caused much stress,
But now we are here
and the pains become less;

And so we must end now,
our fighting has ceased,
Our friendships will stay
but our souls are released.

Michelle Plourde

Through The Years

Through twelve years we have grown,
polishing our friendship like a stone.
We have stood together from the start,
never once coming apart.
I'll not forget the things we've done,
the exciting times, the great fun.
You've taught me much throughout the years,
in times of laughter, in times of tears:
But besides the friendships that we have shared,
my school was one which always cared.

One can search both far and wide,
and never find a thing like LHS pride.

Gary Wilson

OUR PARENTS HAVE

Often, the seeming widsom of our youth has fortunately been displayed by the wisdom of our parents' experience. Fortunately, too, when it became necessary, even, over our most insistent objections, our parents had the last word.

When we returned to the adult gathering in damp footed pajamas seeking that last glass of water . . .
When we wondered about the most opportune approach to employ in presenting the latest report card...
When we first became interested in social functions called parties . . .
When we plotted strategy on requesting the use of the family car . . .

Our parents had the last word.

As we realize, then, the most meaningful accomplishment of our young lives thus far, and consciously reflect upon the magnitude of the role that our parents have played in its attainment, it is certainly appropriate that here, too,

. . . our parents have the final word . . .

Congratulations to Jon
